

THACH HIEN

INTERN IT SUPPORT

0906891704 | th.2806.dev@gmail.com | <https://thachhiendev.vercel.app>

SUMMARY

Information Technology student with a strong foundation in Software Development and Computer Systems. Quick learner with basic knowledge of Linux CLI, Windows administration, and networking setup. Seeking an IT Support / Infrastructure Intern position to gain hands-on experience and prepare for a future DevOps career path.

TECHNOLOGY STACK

Operating Systems	Windows 10/11, Windows Server (Basic), Linux (Ubuntu Server - CLI basic)
Networking & Hardware	TCP/IP, Static IP/DNS, Wi-Fi AP, IP Camera setup, Hardware troubleshooting
Tools & Utilities	Docker, Git, VS Code, Remote Desktop (RDP, AnyDesk), Postman
Programming Languages	C#, JavaScript, PHP, Bash Scripting (Basic)

PROJECTS

HP Auto Detailing Management System | ASP.NET Core Developer

Technologies: ASP.NET Core 8.0, ASP.NET Core MVC, Entity Framework Core, SQL Server, ASP.NET Identity, SignalR, Tailwind CSS, JavaScript.

GitHub Repository: https://github.com/thachhien-github/HP_Detailing.git

Description & Contributions

- Engineered an end-to-end management platform handling service tickets, inventory control, and role-based access control (RBAC).
- Configured local deployment settings, environment variables, database connection pools, and automated database migrations on startup.
- Implemented real-time alert notifications using SignalR and optimized web response performance via static file compression and caching.

InternLink | Full-Stack Developer

Technologies: .NET, ASP.NET Core Web API, React, SQL Server, REST APIs, Clean Architecture, UI/UX Development, System Design

GitHub Repository: <https://github.com/thachhien-github/InternLink.git>

Description & Contributions

- Developed a web platform connecting interns, mentors, and organizations, supporting core management workflows and analytics.
- Built backend RESTful APIs using Clean Architecture to support data processing and scalable business logic.
- Containerized application services using Docker to ensure consistent runtime environments across development and testing setups.
- Supported system design and architectural documentation to ensure maintainability and modularity.

EDUCATION

Ho Chi Minh City College of Transport

Information Technology (Software Application) | 2024 – 2027

GPA: 3.9/4
